## EDUCATION

<b>BE. Applied Electronics</b>	<b>2022-present</b>
<i>Faculty of Engineering in Foreign Languages, University of Politehnica Bucharest   Bucharest, Romania</i>	

## COURSES

Object Oriented Programming, Introduction to Operating Systems, Data Structures, Algorithm Design, Formal Languages and Compilers, Numerical Methods, Introduction in Web Programing, Databases

## SKILLS

<b>Languages</b>	Java, C++, PHP, SQL
<b>Web Development</b>	JavaScript, HTML/CSS
<b>Concepts</b>	Object Oriented Programming

## PROJECTS

<b>BuildYourComputer</b>	BuildYourComputer is a dynamic ecommerce web application designed to streamline the process of purchasing computer components. Built using HTML, CSS, JavaScript, PHP, and MySQL
<b>Weather-App</b>	WeatherApp is a web application I developed to provide users with real-time weather information. Leveraging HTML, CSS, and JavaScript, along with the OpenWeather API, the app delivers accurate weather forecasts based on user-provided location data.
<b>Earth Guard</b>	Developed a CRUD web application for monitoring pollution levels and CO2 emissions as a university project. Implemented features for real-time data recording, editing, and deletion. Utilized PHP, MySQL, HTML, CSS, and Bootstrap.
